

# Monte le volume

## Monte le volume

Activité extraite  
de la brochure APMEP n° 199  
JEUX École 2  
(Version en couleur)

Domaine : Géométrie

## Monte le volume Complément

Activité complémentaire  
de l'activité « Monte le volume »  
de la brochure APMEP n° 199  
JEUX École 2

Domaine : Géométrie

## Les pièces

Réalise un cube avec ces six pièces :

Les dimensions des dessins en perspective ne sont pas aux dimensions réelles des pièces.

Six étapes pour construire un cube.

1

2

3

4

5

6

Avec les cinq pièces ci-dessous, réalise deux pavés identiques, donc deux pavés de même volume.

Les dimensions des dessins en perspective ne sont pas aux dimensions réelles des pièces.

## Activité 5

La pièce jaune est laissée de côté.

Avec les cinq pièces, restantes réalise un cube et un pavé dont le volume est deux fois celui du cube.

## Activité 6

Toutes les pièces sont utilisées.

Réalise deux pavés dont l'un a un volume double de l'autre. Le second aura donc un volume moitié du premier.

Rouge (R)

Jaune (J)

Bleue (B)

J'ai douze arêtes de même longueur.

J'ai six faces.

J'ai six faces de même aire.

J'ai deux faces carrées. Les autres sont des rectangles.

Aucune de mes faces n'est un carré.

Toutes mes faces sont des carrés.

L'aire d'une de mes faces carrées est le double de l'aire d'une de mes faces non carrées.

L'aire d'une de mes faces carrées est la moitié de l'aire d'une de mes faces non carrées.

Je suis la pièce dont le volume est le plus grand.

Je suis la pièce dont le volume est le plus petit.

Je suis la pièce dont le volume est la moitié du volume de la pièce Rouge.

Je suis la pièce dont le volume est le quart du volume de la pièce Rouge.

Je suis la pièce dont le volume est la moitié du volume de la pièce Verte.

Je suis la pièce dont le volume est le tiers du volume de la pièce Verte.

Je suis la pièce dont le volume est la moitié du volume de la pièce Bleue.

La plus petite de mes arêtes a pour longueur le tiers de la longueur de ma plus grande arête.
