10. Tapis en réglettes Cuisenaire des nombres de 2 à 6

Les tapis ici proposés, le sont en se référant au format des Réglettes Cuisenaire : 1 cm (hauteur), 2, 3, 4, 5, 6 cm (longueur).

Le segment pointillé aide à aligner verticalement les réglettes. Ce segment est plus long que la hauteur des différents étages de décomposition.

Il est possible de proposer des réglettes de section et longueur plus grandes pour faciliter la manipulation chez des enfants en difficulté (dyspraxie).

Il faut alors refaire ces feuilles aux dimensions des réglettes plus grandes proposées.

12. Fiches rituels sur les maisons de 2 à 5

Chaque jour, chaque élève reçoit une feuille A5 avec les maisons de 2 à 5 à compléter en écrivant en chiffres les décompositions.

De jour en jour les maisons sont de plus en plus épurées.

Rituel 1 : maisons ordonnées **avec** toutes les caractéristiques de l'architecture :

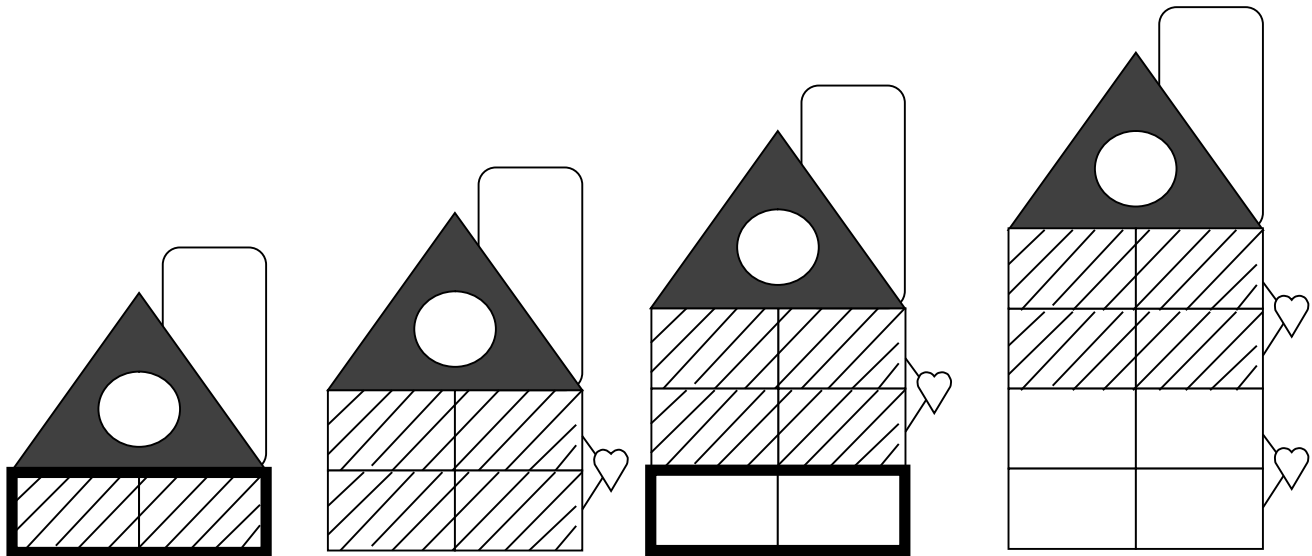

- Le toit avec lucarne et cheminée
- hachure pour le 1 et quelque chose,
- les liens pour les contraires, les amoureux,
- étage gras pour les jumeaux

Rituel 2 : maisons désordonnées **avec** toutes les caractéristiques de l'architecture :

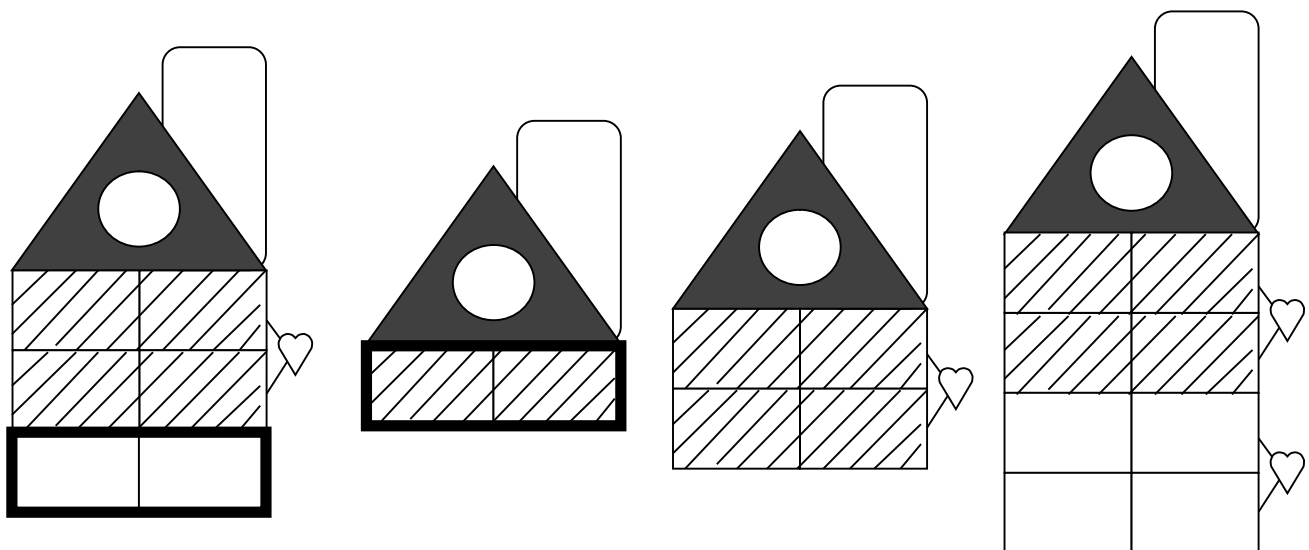

Rituel 3 : maisons ordonnées **sans** plus de caractéristiques
